Two billion people across the globe will be learning English in the next 10-15 years. Shouldn't you be one of them?

ENGLISH - THE MOST IMPORTANT SKILL YOU'LL EVER LEARN

There are many important skills to learn in life, but there is one you cannot afford to overlook: the ability to communicate fluently in English.

Did you know that out of the 6,000 languages spoken in the world today, half of the world's population speaks only ten of them? And the most dominant of these is English. It is now the world's most widely taught foreign language and over the next 10-15 years it is projected that around two billion people across the globe will be learning it. Shouldn't you be one of them?

Today, English is the language of international business, technology, education and travel. Everywhere you go in the world people speak it. More often than not, it is the only way that people meeting abroad for business or a holiday are able to communicate.

English is no longer a 'nice-to-have' skill but a 'got-to-have' skill for everyone who wants to get the most out of today's world – either for business or pleasure.

Fortunately, Direct English from the Linguaphone Group has made learning English easy and accessible for adults of all ages and abilities. What's more no English language knowledge is necessary, so why wait?
